What is Pipes?

Welcome to Pipes, a news app with great design that lets you consume news that's personalised, easy to view, summarised & fully automated. Only the stories that really matter to you will show up on Pipes.

Features

- **Summaries on the go**

Pipes' power packed Summary gives you 4 of the most important points of the article. Get only what's relevant. Along with short form news, Pipes also offers long form content.

- **NewsList - Listen to your News**

Along with personalised content, we are introducing NewsList, where you can listen to your News as well. Simply select the articles you wish and stay up to date with your News even as you drive.

- **Recommendation Engine**

Pipes also comes with a Recommendation Engine that recommends interests, articles & other data that is curated just for you.

- **Explore over 2 Million Topics**

Explore topics that really matter to you; you could explore interests as broad as 'Parenting', 'Astronomy' or even something specific like 'Apple'. Add custom alerts for your Pipes to stay updated all the way.

- **Design & Fluidity**

Pipes brings to you an incredible reading view with great legibility, day and night mode, font sizes; accompanied with a very clean interface that will allow you to get consumed by content.

What platforms does Pipes support?

Pipes is exclusively an iOS app. On the iOS platform, Pipes is available for iPhone, iPad & Apple Watch.

Founders

Pipes is started by 2 young entrepreneurs in Vinay Anand (22) and Siddharth Goliya (25). The duo have been working together for the past 3 years and have started 3 other ventures before.
